PROFILE

I'm a Digital Product Designer with **6+** years of experience creating clean, user-friendly experiences for web and mobile apps. I enjoy turning complex ideas into simple, practical designs, and I've worked on improving usability, building design systems, and collaborating closely with teams to bring products to life.

WORK EXPERIENCE

Squadio *Supported [tamm](#)*

10/2024 – 02/2026

Senior Product Designer (Solo)

- Led seller dashboard design, improving efficiency and experience.
- Built Store Templates, Tamm Admin, and Template Editor.
- Created Design System tailored for the Saudi market.
- Collaborated with cross-functional teams on business goals.
- Designed AI-driven features for sellers and shoppers.
- Grew design culture and local e-commerce innovation.

Salla

09/2021 – 09/2024

Senior Product Designer

- User Research: Conducted 25+ interviews, boosting usability scores by 40% through data-driven design iterations.
- Design System: Built a scalable system that cut development inconsistencies by 75% and accelerated handoff.
- Mobile UX: Designed responsive interfaces that increased user retention by 60% and improved time-on-page.
- UI/UX Workflows: Standardized UI patterns for Salla Business, ensuring cohesion and reducing design debt by 25%.

āN Design

05/2021 – 09/2021

Mid Level – UX UI Designer

- Collaborated cross-functionally on design solutions.
- Dug into research to make sure my designs were spot-on.
- Put together a full design components library from scratch.
- Designed wireframes, mockups, and prototypes (freelance gigs).
- Nailed client deadlines with pixel-perfect results.

Baianat

11/2020 – 05/2021

Mid Level – UX UI Designer

- Partnered with engineering to deliver scalable products.
- Talked to real users, found their headaches, designed fixes.
- Designed intuitive interfaces and prototypes that support real user needs.
- Built a design library that actually saved everyone time.

Tech Steps

12/2019 – 11/2020

Junior UX UI Designer

- Aligned UX with business goals to drive engagement.
- Created wireframes to optimize user journeys.
- Improved product functionality based on project requirements.
- Designed intuitive interfaces enhancing usability and user experience.
